

ENVIRONMENTAL & ENERGY MANAGEMENT POLICY

TMS Cardiff Gas Ltd. is involved in the transportation of Liquefied Gas by sea, and recognizes the impact on the environment of its main operations and is therefore committed to the protection of the environment including the prevention of all forms of pollution, sustainable resource use, climate change mitigation and protection of biodiversity and ecosystems, whilst carrying out its activities.

TMS Cardiff Gas Ltd. recognizes the contribution of its main operations to the pollution of the atmosphere and the depletion of natural resources, especially of fossil fuels, and is committed to the continual improvement of its management system and energy performance.

TMS Cardiff Gas Ltd. is committed to complying with all applicable local, national (flag and/or port state) international and classification societies' rules and regulations and legal obligations, including industry recommendations, guidelines, and codes of practice as setting the standards for the minimum performance.

All personnel employed by **TMS Cardiff Gas Ltd.** are required to work within the above requirements in a way that ensures that all activities are carried out in a safe and environmentally friendly manner and that pollution is prevented in all circumstances.

TARGET – ZERO SPILLS

TMS Cardiff Gas Ltd. shall identify all aspects of its operations, both ashore and onboard, which have an impact on the environment and shall prepare operational guidelines to ensure that the impacts of each aspect of its activities do not threaten the environment, either locally or globally.

Wherever possible, such activities, objectives and targets shall aim to reduce any potential impact or damage to the environment or depletion of the earth's natural resources.

TMS Cardiff Gas Ltd. recognizes the importance of monitoring changes in legislation, equipment and practices that impact on environmental and energy management with a view to the continual improvement of its operations and performance.

TMS Cardiff Gas Ltd. shall provide all necessary resources to enable all vessels and their personnel to perform their duties in respect of environmental and energy management, to achieve environmental and energy objectives and targets, and ensure that this policy is fully complied with at all times and by all persons involved with its implementation.

TMS Cardiff Gas Ltd. supports the procurement of energy-efficient products and services that impact energy performance and design activities that consider energy performance improvement.

TMS Cardiff Gas Ltd. shall ensure that all third parties involved with its activities shall conform to this company policy when providing their services to the company during its operations.
